

UP-500

Security category

O2

Additional requirements A, E, FO, HRO, SRC, WRU

PRODUCT DESCRIPTION:

Waterproof full grain leather upper. Highly breathable 3D Airnet® textile lining. Super cushioned EVA sole + rubber. "Ago" processing.

Upper	Leather: <i>Water repellent full-grain leather 1.8-2.0 mm</i>
Lining	3D Fabric: <i>AIRNET® - Highly breathable and absorbent three-dimensional mesh fabric</i>
Outsole	UP WALK: <i>E' realizzata completamente in EVA ammortizzante e rinforzata da un battistrada in gomma. Si distingue per leggerezza e comodità, grazie all'EVA che si modella perfettamente alla forma del piede. L'ideale per chi trascorre molto tempo in piedi.</i>
Processing	AGO: <i>The Ago processing is the most common because it makes the shoe flexible and light. The processing consists of joining the upper to the sole through glues, avoiding the use of other joints that stiffen the structure and lead to a loss of comfort in the foot</i>
