PRODUCT TECHNICAL SHEET

MONTEBOVE dal 1953 made in Italy

Date 09/11/2026

BAYONET

Norm	UNI EN ISO 20344:2022/A1:2024, UNI EN ISO 20347:2022
Security category	O3L
Additional requirements	A, CI, E, FO, HI, HRO, PL, SR, WPA

PRODUCT DESCRIPTION:
Mid-boots type "B" with water repellent full-grain leather and cordura fabric upper. Waterproof and breathable membrane lining. Ultralight phylon and PU outsole with stabilizer + slip resistant rubber tread. Elastic lacing. Kevlar textile antiperforation insole. Ago working.

Upper	Leather and fabric inserts: *Water repellent full-grain leather and highly breathable cordura fabric*
Processing	AGO: *The Ago processing is the most common because it makes the shoe flexible and light. The processing consists of joining the upper to the sole through glues, avoiding the use of other joints that stiffen the structure and lead to a loss of comfort in the foot*
Insole	Anti-perforation: *Protects the foot against possible injury caused by the presence of perforating material on the floor.*
Outsole	ENERGY SHIELD: *is a new type of outsole specifically designed for maximum support and comfort. The double action of ultra-light Phylon and soft PU, allows maximum damping. The plastic stabilizing insert protects the foot thanks to a maximum support of the arch. Rubber tread ensures maximum slip resistance and anti-abrasion.*
Lining	PTFE membrane lining: *WINDTEX - Bi-component microporous PTFE membrane that provides high waterproofness, breathability and resistance*
Size	Unisex 36-49
Footwear type	B (over the ankle)
Sector	Army, Police and Law Enforcement
Weight	≤ 500
Allacciatura	Elastica
