Norm UNI EN ISO 20344:2022, UNI EN ISO 20347:2022
Security category O2
Additional requirements A, E, FO, HRO, SR, WPA

PRODUCT DESCRIPTION:

Low top shoe type "A" with soft, waterproof, and breathable full grain leather with waterproof Cordura inserts. Fastening through 6 couples of holes and sturdy laces. Highly breathable and absorbent 3D Ainet® textile lining. Ultralight sole with a double layer of PU and phylon, stabiliser and rubber tread. "Ago" processing. Usage and maintenance note: it is important to keep the product always clean using non aggressive cleaning products. Store your footwear dry and clean in the proper place, at room temperature, away from direct heat. Every pair of shoes is packed in a single cardboard box.

Upper	Leather and fabric inserts: <i>Water repellent full-grain leather and highly breathable cordura fabric</i>
Lining	3D Fabric: <i>AIRNET® - Highly breathable and absorbent three-dimensional mesh fabric</i>
Processing	<i>AGO: The Ago processing is the most common because it makes the shoe flexible and light. The processing consists of joining the upper to the sole through glues, avoiding the use of other joints that stiffen the structure and lead to a loss of comfort in the foot</i>
Outsole	<i>ENERGY SHIELD: is a new type of outsole specifically designed for maximum support and comfort. The double action of ultra-light Phylon and soft PU, allows maximum damping. The plastic stabilizing insert protects the foot thanks to a maximum support of the arch. Rubber tread ensures maximum slip resistance and anti-abrasion.</i>
Sector	Police and Law Enforcement
