

E-CASTORO

Security category O2  
Additional requirements A, E, FO, HRO, SR, WPA, WR

PRODUCT DESCRIPTION:

Waterproof full grain leather upper. Waterproof and breathable membrane lining. Ultralight phylon and rubber sole with stabiliser. "Ago" processing.

Upper	Leather: <i>Water repellent full-grain leather 1.8-2.0 mm</i>
Lining	PTFE membrane lining: <i>WINDTEX - Bi-component microporous PTFE membrane that provides high waterproofness, breathability and resistance</i>
Outsole	ENERGY SHIELD: <i>is a new type of outsole specifically designed for maximum support and comfort. The double action of ultra-light Phylon and soft PU, allows maximum damping. The plastic stabilizing insert protects the foot thanks to a maximum support of the arch. Rubber tread ensures maximum slip resistance and anti-abrasion.</i>
Processing	AGO: <i>The Ago processing is the most common because it makes the shoe flexible and light. The processing consists of joining the upper to the sole through glues, avoiding the use of other joints that stiffen the structure and lead to a loss of comfort in the foot</i>
