UP-505

Additional requirements A, E, HRO, SR, WR

PRODUCT DESCRIPTION:
Waterproof full grain leather upper. Highly breathable 3D Airnet® textile lining. Super cushioned EVA sole + rubber. "Ago" processing.

Upper	Leather: *Water repellent full-grain leather 1.8-2.0 mm*
Lining	3D Fabric: *AIRNET® - Highly breathable and absorbent three-dimensional mesh fabric*
Outsole	UP WALK: *Completely made of shock absorbing EVA and reinforced with a rubber tread. It stands out for its lightness and comfort, thanks to EVA's ability to mold perfectly to the shape of the foot. Ideal for those who spend a lot of time on their feet.*
Processing	AGO: *The Ago processing is the most common because it makes the shoe flexible and light. The processing consists of joining the upper to the sole through glues, avoiding the use of other joints that stiffen the structure and lead to a loss of comfort in the foot*
