

## IDRA

Security category OB

Additional requirements A, E, FO, SR

### PRODUCT DESCRIPTION:

Waterproof pierced full grain leather upper. Highly breathable 3D Airnet® textile lining. Polyurethane sole with Air System® air exchange system. "Ago" processing.

Upper	Leather: <i>Water repellent full-grain leather 1.8-2.0 mm</i>
Lining	3D Fabric: <i>AIRNET® - Highly breathable and absorbent three-dimensional mesh fabric</i>
Outsole	<i>AIR CHANGING SYSTEM: Certified system for air circulation in the shoe during usage.</i>
Processing	<i>AGO: The Ago processing is the most common because it makes the shoe flexible and light. The processing consists of joining the upper to the sole through glues, avoiding the use of other joints that stiffen the structure and lead to a loss of comfort in the foot</i>
