

AB10M

Norm UNI EN ISO 20344:2022, UNI EN ISO 20345:2022
Security category S3
Additional requirements HRO, M, SR

PRODUCT DESCRIPTION:

Ankle shoe type "B". Water repellent leather upper and highly breathable 3D Airnet® textile lining. Composit® toecap with metatarsal protection. Textile anti-perforation sole. Quick-release fastening system with clips. Antistatic, oil and slip resistant rubber outsole. "Ago" processing.

Upper	Leather: <i>Water repellent full-grain leather 1.8-2.0 mm</i>
Lining	3D Fabric: <i>AIRNET® - Highly breathable and absorbent three-dimensional mesh fabric</i>
Outsole	QUAM: <i>Antistatic and anti-slip in nitrile rubber. The Quam outsole is suitable for those working outdoors or where high water resistance is required</i>
Processing	AGO: <i>The Ago processing is the most common because it makes the shoe flexible and light. The processing consists of joining the upper to the sole through glues, avoiding the use of other joints that stiffen the structure and lead to a loss of comfort in the foot</i>
Insole	Anti-perforation: <i>Protects the foot against possible injury caused by the presence of perforating material on the floor.</i>
Size	35-48
Toe cap	Composite: <i>resistant up to 200J. Protective strip for toe comfort.</i>
Protection	Toe cap and metatarsal protection
